

NICK'S AUTO BODY & TOW

5 Star Testimonials

"They really helped me out after a terrible accident. with a tow and repair. I thought my Honda Civic was totaled but somehow they brought it back to life. I'm still driving it today and it drives better now than it did prior to the accident. I'd highly recommend them."

"I've been lucky enough to never really need any car body work done. Our previous car was 14 before we traded it in. (At 14 you look past the dings and scratches!) When an unsightly dent appeared on our 9 month old car we needed to do something. I've driven by Nick's Auto Body every day headed to work. A quick phone call; stopped in to see Richard; scheduled the service; drop it off in the morning; picked it up in the afternoon; I couldn't be happier with the service and the results!"
